

LONE PROTECTOR

SOLO ACTIVE SHOOTER RESPONSE

THE COURSE:

This specialized training is designed for law enforcement officers who may face the critical challenge of being the first or only responder to an active shooter incident. The course emphasizes the unique demands of solo response, focusing on rapid threat assessment, swift action, and effective threat neutralization to protect lives. Officers will engage in realistic, scenario-based training designed to replicate the pressures of real-world solo response to active shooter situations, building the confidence and tactical precision necessary to save lives.

COURSE BENEFITS:

- **Real-World Application:** Practical training for solo responses to active shooters in schools.
- **Expert Instruction:** Learn from experienced SWAT and tactical law enforcement professionals.
- **Enhanced Confidence:** Build skills and confidence for decisive responses in high-stress scenarios.

LONE PROTECTOR

COURSE OUTLINE:

Mindset and Preparation: Mental preparedness, situational awareness, and handling high-stress school encounters, covering threat recognition and proactive readiness.

Fundamentals and Movement: Hands-on solo officer movements in schools, focusing on tactical movements and decision-making under pressure.

Force-on-Force Scenarios: Full-scale high-threat scenarios with live actors, emphasizing initial actions, solo response, command, control, and communication, with repeated drills to instill reflexive responses.
